What’s New?

Actually, there is quite a bit that’s new at the Lake County Law Library! Arriving along with the new year and cold temps, the Law Library has welcomed new, desktop computers available for patron use, allowing us to put our former public laptop computers into the circulating collection for check-out. In addition, we are in the process of replacing our antiquated television with a new, flat-screen television to accompany our existing teleconferencing unit. We are also working on getting our new ELMO Projector ready for patron check-out. To accommodate this new technology, the Law Library Resources Board had to update some policies which requires new user agreements to be signed and includes fines for technology equipment that is returned late.

In addition, the end of 2014 saw a new negotiation for a 3-year contract with Thomson-Reuters for our Westlaw database holdings. The Law Library renegotiated both the Government Select and Patron Access packages. The Government Select package is for County employee-use only and requires separate passwords. Included in this package is Drafting Assistant and PeopleMap. Drafting Assistant is a big time-saver that works with Microsoft Word or Corel’s Word Perfect for users to create and edit drafts, as well as check and input citations. PeopleMap is a tool that will search available public records, including social media resources. These features were added to the County plan at no additional cost.

The Patron Access module of Westlaw is available to library users in-house. We were able to add the popular, Practical Law to this plan. Practical Law offers resources tailored to more specific areas of law and includes valuable checklists, templates, and other educational resources created by a panel of top attorneys in each field.

And lastly, we’ve also added West’s FinPlan Divorce Planner to 2 of our library computers at no cost. FinPlan software calculates child support and alimony payments, online client worksheets, summary analysis and more.

Stop in to review our resources or just to say, “Hello!”
